

Our Model

1 in 5 kids in Michigan are at risk of hunger. Hand2Hand delivers nutritious food to students over the weekends and on extended school breaks, when they are most vulnerable to hunger.

1

A school requests Hand2Hand.

A school reaches out to Hand2Hand to request our program.

2

Church partners are recruited.

The Hand2Hand Team recruits and equips churches to partner with a school on the weekend.

3

Families choose to receive food.

The school sends home a digital permission slip for our opt-in program. Anyone who asks to receive weekend food automatically qualifies.

4

Food is discreetly delivered.

Volunteers from the partnering church deliver backpacks of weekend food to students' lockers or pantries each week.

5

Student takes home food for the weekend.

Students receive a backpack with 12 nutritious breakfast, lunch/dinner, and snack items every week.

Our Impact

Hand2Hand is the largest weekend food backpack program in West Michigan serving:
